

## Bauble 2 – Wednesday 6th December 2017

Perhaps you have already guessed what happens next!

For the 3rd star, start by attaching one point in the 2nd star...

... and the next point in the 1st star – note that this is a point that's "shared" with the 2nd star!

Continue and attach the following point in the next point in the 1st star.

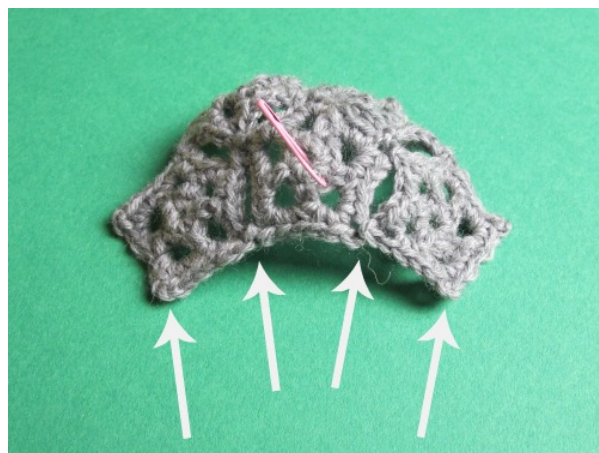

The 3rd star is now attached to the others in 3 places.

Attach the 4th and the 5th star to the others in exactly the same way as the 3rd star.

Looks like this doesn't lie flat? Good, that's what we want!

The 6th star will be attached to the others in 4 places, indicated by the arrows in the picture.

*Voilà!*

Next step tomorrow!
