

Advent Calendar 2018 – Flower 1 step 2.

This pattern uses US terminology

In this step we need a special stitch, the 4-tr cluster.

4-tr cluster (worked in a group of 4 dc in previous row) : yo twice, insert hook in first dc in group and pull up a loop (there are 4 loops on the hook), repeat [yo, pull through 2 loops] twice (there are 2 loops on the hook), repeat [yo twice, insert hook in next dc and pull up a loop, repeat {yo, pull through 2 loops} twice] three times (there are 5 loops on the hook), yo, pull through 4 loops, yo, pull through the remaining 2 loops.

This is basically a tr4tog, finished off as a puff stitch. If you find it difficult, you can use a tr4tog instead.

Round 5 : Ch 1 (do not count as a st), 1 sc in ch-space, ch 5, 4-tr cluster in next 4-dc group, ch 5, *1 sc in ch-space, ch 5, 4-tr cluster in next 4-dc group, ch 5 ; repeat from * to end of round, close round with 1 sl st in first sc.

Fasten off.

Flower 1 is not finished yet, we'll continue tomorrow !
